Do you currently own a dog or other pet?

Have you ever owned a dog before?

If you have owned a dog before what breeds have you owned? What happened to the dogs?

Tell me about yourself, lifestyle, family, children (how many and ages), other people living in the household (how many and what ages)? This helps me understand if you are a good fit for one of our puppies.

Home and Puppy

What is your living situation? (home, apartment, townhouse, RV, other)

If you rent, has your landlord approved you getting a dog this breed and size?

Do you have a yard, if so, is it fenced with secure fencing?

What is your breed, gender, color and size preference?

Goldendoodles (GANA Blue Ribbon health tested)

Social, outgoing, eager to please, thrive on human companionship, incredibly intelligent quick to learn, both the golden retriever and poodle score in the top 4 of the smartest breeds, low to non-shedding coats, hypoallergenic, perfect candidates for service work and family pets, Our goldendoodles health and vitality is dramatically enhanced since parents are clear of common breed inherited genetic diseases and pass OFA testing for hips, eyes, heart, elbows and patellas.

Have you talked with other owners of the same breed?

Are you on a waiting list for any other litters?

Who will be the primary caretaker of the puppy?

Will someone be home with your puppy during the day? If no what are your plans for the puppy if you are gone longer than a couple of hours?

Where will your puppy stay during the day, at night, when you are not at home? (be specific).

How do family members feel about cleaning puppy poop, yellow spots in the grass, holes dug in the landscaping and paths from the patter of paws around the yard?

Are you aware of the time and costs for health care, grooming, training, exercise, potty training, and socialization associated with owning a dog, and believe you have the time and can afford such costs?

Puppies have delicate digestive systems and I understand that changing the food my puppy goes home eating can cause severe gastric distress.

Do you agree to use the same dog food my breeder sends my puppy home on until my puppy is at least 4 months of age?

Do you plan to purchase pet insurance (recommended)?

(We have partnered with Trupanion to provide 30 days free insurance if you sign up within 24 hours of when you bring your puppy home.)

Puppies learn best what puppies learn first. We start training when puppies are 3 days old! Prevent unwanted behaviors and develop a close and loving bond through positive training don't wait until your puppy is fully vaccinated to start training!

We recommend preparing for your puppy training and socialization before you bring your puppy home. We have two options available to you for puppy training. This training is excellent, affordable, and cover areas that are not usually included with basic puppy kindergarten.

Do you understand these options are available for you?

Good Dog on-line puppy training

Free when you use Good Dog payment protection and pay for your dog through Good Dog payment portal

Baxter and Bella on-line puppy training

- Lifetime membership and support
- Instant 25% savings when you use the discount code [PJs](#)

Training and socialization are very important in raising a puppy. We require all buyers to attend a Puppy Kindergarten class that includes free play among the puppies.

Where will you and your puppy attend Puppy Kindergarten?

How would you describe your lifestyle?

Very active, outgoing and doing, people of all ages in and out of your home regularly

Moderately active, routine, structured occasional outings and visitors

Quiet and clam, rarely have visitors

Do you understand puppies come with a spay/neuter agreement?

What is your timeline to get a puppy?

Puppies are ready for their new home beginning at 8 weeks of age. Preference is given to those who are ready for a puppy.

The first 16 weeks of your puppy's life are critical, it can be difficult for a puppy to adjust to major changes. Do you have any vacations planned in which you would not be able to include the puppy and thus would have to leave your puppy with someone other than an immediate family member? If so, where will they stay?

We feel it is important for both the buyer and the puppy to have a good fit. We perform personality testing on puppies between 7 and 8 weeks of age. This testing along with your application help us make the best choice for you and the puppy. There is no perfect puppy only a puppy that is perfect for you. Do you understand we match puppy to owner?

Question How did you hear about us?

What questions do you have for us?

Please provide name, email and phone number for two references with such as a veterinarian, or close acquaintance knowledgeable about dogs,

When application complete email application to pjspuppylove@gmail.com
